Executive Summary

This report presents the findings of an automated accessibility audit performed on https://parkslopetaxes.com.

Accessibility Score: 98/100

Good risk level

Key Findings:

Total issues found: 1

Critical issues: 0

WCAG 2.1 Level A violations: 0

Top Issues Found

#1: No description

Impact: WARNING

Location: N/A

Why This Matters

Legal Compliance

Under the Americans with Disabilities Act (ADA), websites must be accessible to people with disabilities.

Non-compliance can result in lawsuits and financial penalties.

Business Impact

Improved user experience for all visitors

Better SEO rankings (Google prioritizes accessible sites)

Wider audience reach (61 million Americans have disabilities)

Reduced legal risk

Recommended Actions

Immediate: Fix critical issues affecting navigation and content access

Short-term: Address moderate issues within 30 days

Long-term: Implement accessibility testing in your development workflow

Ranuk IT Solutions can help you achieve full ADA compliance with our comprehensive

accessibility services, including audit, remediation, and ongoing monitoring.
